About Beamer

What is Beamer?

Beamer,

Advantages of Beamer

- The standard commands of LaTeX also work in Beamer. If you can write basic LaTeX, you can easily make a Beamer presentation.
- A table of contents will automatically be created, complete with clickable links to each section and subsection you create in your presentation.
- The layout, colors, and fonts used in a presentation can easily be changed globally, but you also have control over the most minute detail.
